

# COMPLEX PRINTING HAS NEVER BEEN THIS EASY.

AS EASY AS TYING SHOELACES. AND JUST AS FLEXIBLE ARE THE WORK GROUP PRINTERS P-C3060DN AND P-C3570DN. THANKS TO THE SELF-EXPLANATORY DRIVER INTERFACE, THE MOBILE PRINT APP AND THE APPLE AIRPRINT® PROTOCOL, BRILLIANT PRINT JOBS CAN BE CREATED BY ANYONE EVERYWHERE AT ANY TIME. AMONG OTHER THINGS, AN IMPROVED COLOUR MANAGEMENT, WHICH EVEN PRODUCES COMPANY LOGOS IN CLOSE TO PERFECT COLOUR PRECISION, MAKES THIS POSSIBLE.

VARIOUS PAPER FORMATS; DIFFERENT PAPER WEIGHTS AND A HIGH PAPER CAPACITY CAN BE PROCESSED AND ENSURE HIGH FOLLOW-ON PRODUCTIVITY AT TOP SPEED. BUT AS GREAT AS OUR PRINTERS ARE: THEY CAN UNFORTUNATELY NOT TIE SHOELACES – NOT YET!

## HIGHLIGHTS:

**Colour documents on a high level:** The intuitive driver software offers a variety of settings, in order to get the best out of colour documents. A simple click allows you to, for example, select „publication“ or „vivid colours“ and you immediately receive a brilliant printing result. But the highlight is the colour optimiser with which you can achieve high colour precision for company logos and colours. It doesn't get more professional than this!

**Highest level of flexibility:** The printers not only process a high paper capacity of max 2,650 pages\*, but also various formats (A6R-A4) and different paper weights (60-220 g/m<sup>2</sup>) at the same high colour quality. The connection possibilities also leave no wish unfulfilled - whether it is USB 2.0, USB host, 10/100/1000BaseTX card or wireless connection\* – the printers can be easily integrated in every environment.

**Productivity increase:** After the warm-up time, the extremely fast first page (max 10 seconds) and immense follow-on speed are convincing. Especially for extensive print jobs, this is an advantage that should not be disregarded.

**Intuitive operation:** The optimised driver is sorted clearly by functional areas and the interface is uniform for all systems. That creates a very high user-friendliness – across the systems. Specific, individual user profiles allow recurring print jobs to be started by mouse click. It couldn't be more simple!

The P-C3060DN and the P-C3570DN are manufactured in accordance with the requirements of the Energy Star Program.

UTAX GmbH has been a trade mark for professional office technology since 1961. As the partner of a German wide dealer network and international distribution, we are specialised in the distribution and integration of printing, copying and multifunctional systems in corporate IT and public sector, amongst others. With the MDS solution UTAX smart for example, output systems can be controlled regardless of the manufacturer and the infrastructure can be optimised in line with demands.

UTAX recommends the use of original UTAX accessories for trouble-free operation of your system. For recommended print media refer to the user manual.

UTAX and the UTAX logo are registered trade marks of UTAX GmbH. All other brand names referred to are registered trade marks of the respective manufacturers.
