Efficiency gains

through multifunctional all-rounder

There is huge potential for improving the efficiency of document workflows in small businesses or start-ups, small to mid-sized workgroups and home offices. A new multifunctional all-rounder from DEVELOP, the ineo 3320, comes with functions and features that have been specifically designed to make efficiency gains possible. By enabling people to get back to their real work faster and actually enjoy such routine jobs as printing, copying, scanning or faxing, this powerfully efficient monochrome office system impacts positively on productivity and motivation.

More productive workflows

Some multifunctional devices take time to wake up. Large print jobs need lots of time. Office workers waste their time waiting. All these factors can affect the productivity of a business. The ineo 3320, in contrast, brings efficiency gains in everyday printing, copying and scanning jobs: first, it delivers a first print in just 6.5 sec from ready mode and 9 sec from sleep mode; second, a powerful controller and system memory ensure print jobs are processed fast; third, the maximum print speed of 33 A4 pages per minute is ideal for small businesses, offices or workgroups.

Time-saving operating concept

Complicated menus, poor navigability or the need to enter the setting for each repeat print, copy or scan job are just some of the frustrating experiences office workers complain about. But if office systems are intuitive easy to operate, office workers have to spend less time away from their workplace. The ineo 3320 has been specifically designed to do away with operating difficulties. A clearly structured menu navigation ensures users can find all the basic settings easily and quickly. If problems crop up, animated help menus provide an answer fast. The outcome is a more enjoyable user experience and less time spent away from the user's real job.

Quiet and energy-efficient

In small businesses or start-ups, small to mid-sized workgroups and home offices a multifunctional office device is frequently located in the same room as one or more users. So noisy devices are a big distraction and source of dissatisfaction. That is why the ineo 3320 comes with a quiet mode that reduces noise levels during printing to ensure a more pleasant working environment. With energy efficiency now a business-critical issue, the hibernate mode reduces power consumption to less than 0.5 W so there is no need to switch the ineo 3320 off in the evenings or at weekends. Other energy-saving features include the eco mode where users have the choice of saving energy, paper or the most economical option, energy and paper. Whatever energy-saving alternative is chosen, it is good for the environment – and the owner's bottom line.

Maximum efficiency

This multifunctional all-rounder enables all the normal document processes – printing, copying, scanning and faxing – to be carried out from a single operating panel. This simplifies things and saves time. Some of its none-too-common features are also most useful. The colour scanning function, for example, allows colour documents to be scanned and sent to any destination, e.g. an e-mail address, a preconfigured network folder or FTP server. The ineo 3320 comes with many means of making office workflows more efficient.

Optimum flexibility and security

The ineo 3320 is ideally equipped to deal with large print or copy jobs and different types of media. A choice of input trays allows the paper capacity to be increased to 850 sheets and an optional second cassette permits an additional type or size of paper to be stored in the machine. This media flexibility is complemented by the secure print function that ensures no document ends up in the wrong hands in a multi-user environment.

GENERAL DATA

Type of machine

A4 monochrome All-in-One device

Printing and copying speed

> A4

Max. 33 ppm

Print system

Laser

Gradation

115

Paper feeder

> Standard: 300 sheets, max. 850 sheets

> 250-sheet universal cassette
(A6-A4, 60-90 g/m²)

> 50-sheet bypass (A6-A4, 60-163 g/m²)
for paper (including recycled paper), labels,
envelopes, transparencies, card stock

Paper format

Max. 216 x 356 mm

Printable area

206 x 346 mm

Dimensions (w x d x h)

389 x 472 x 468 mm

Weight

20 kg

Power

220-240 V / 50/60 Hz

PRINTER SPECIFICATIONS

Controller

Standard: Dual core controller with 800 MHz

Memory

256 MB

Resolution

Max. 1,200 x 1,200 dpi

Network protocols

TCP/IP (IPv4 / IPv6); UDP; IPP; LPD; HTTP; HTTPS;
SNMP; AppleTalk

Emulation

PCL5, PCL 6, PostScript 3, XPS

Interfaces

10-Base-T/100-Base-TX Ethernet; USB 2.0

Driver

Windows XP (32/64); Windows VISTA (32/64);
Windows 7 (32/64); Windows 8 (32/64); Windows
Server 2003 (32/64); Windows Server 2008 (32/64);
Windows Server 2008 R2 (64); Windows Server
2012 (64); Macintosh OS X 10.x; Linux; Citrix

Print functions

Duplex, n-up, watermark, cover sheet,
electronic sorting, secure print

SCAN SPECIFICATIONS

Type of scanning

Scan-to-e-mail; Scan-to-FTP; Network TWAIN scan

Resolution

Max. 600 x 600 dpi

Scanning speed

Up to 42/19 ipm (monochrome/colour)

Size of originals

Max. A4

Scanning formats

PDF; TIFF; JPEG; XPS

Scan addresses

Max. 500

COPY SPECIFICATIONS

Document feeder

> Simplex ADF (Standard)

> 50 sheets

> 52-120 g/m², A6-A4

Copy pre-selection

1-999

Zoom

25-400 %

First A4 copy

6.5 seconds

Memory

256 MB

Resolution

600 x 600 dpi

Copier functions

Duplex, n-up, page insertion, overlay,
electronic sorting

FAX SPECIFICATIONS

Compatibility

Super G3/MH; MR; MMR; JBIG; JPEG

Transfer rate/transfer speed

Up to 33.6 kbps

Fax memory

Uses device memory

Fax functions

Time shift, PC-fax, up to 500 job programs;
block junk fax banned fax list, fax server

OPTIONS

> 250-sheet cassette (A5/A4, 60-120 g/m²)

> 550-sheet cassette (A5/A4, 60-120 g/m²)

> Simple copier desk

> 256 MB user flash

> Wireless LAN

> Convenience stapler

SOFTWARE SOLUTIONS

> Enterprise Device Manager

> ineo Remote Care (optional)
